PREAMBLE

This preamble shall never be amended or destroyed in the history of this Association.

Within the framework of this Association shall be preserved forever the theory and belief that all humans are born equal irrespective of race, creed, colour or nationality and that it is the full intent of our God for all mankind to reside together in peace and unison with complete freedom and dignity for man.

It is the intent of this body to preserve and advance these principles by joining together the nations and continents of the world through the preservation by usage of mankind's most ancient weapon, the bow and arrows, in games designed to challenge individual skills while creating a better understanding.

Further, this body recognises the sovereignty of each nation to administer such programmes as it deems necessary and desirable for the benefit of archery within the nation and the world.

- c. An arrow hitting another within the target and remaining embedded in that arrow shall have the same scoring value as that arrow. Arrows being deflected by other arrows shall be scored by their position.
- d. Where a line separates one scoring zone from another on the target face or 3D target, the line is in the lower scoring area. Where there is no line the arrow must cut the higher scoring area to score the higher value. The position of the shaft on the surface of the target determines the score.
Arrows that enter the 3-D target close to the hairline and do not remain embedded in the target are not counted and no other arrow shall be shot.
On 3D targets, arrows sticking in the target stand or base and those in the horns or antlers are not scored.
- e. The number of times an archer draws an arrow before releasing that arrow will be limited to four. If the arrow is not then shot it will be scored as a miss. H. COURSE LAY-OUT REQUIREMENTS

1. All relevant course lay-out requirements as defined in Article VI of the By-Laws shall apply.
2. In laying out or setting up a Bowhunter course the following points must be followed:
 - a. Distances used shall be those designated for the individual round or portion of the round being used.
 - b. All target butts must be stable with no danger of tipping. 3D targets shall be freestanding and securely anchored.
 - c. Any competitor, regardless of height, must have a clear view of the target. When constructing a CUB only range, take into consideration the reduced heights of the competitors.
 - d. Target lanes, areas, etc., are not required to be maintained at the same level of a Field Course. IE: targets may be placed in a reasonably representative area of natural growth. The target must not be purposely obscured from view. While realising some hunters will take a more difficult shot, the organiser must not accept that as a norm. We are presenting representative and competitive rounds, not constructing an obstacle course or a test of acrobatic skills. Some degree of difficulty is permissible, tempered with a balance of consideration for the average and the non-hunting archer. All archers must have a clear view of the target. The total score area must not be obscured.
3. The 3D target will be positioned so that the scoring area is face on to the archer. For group 1 and 2 targets, the target may be angled towards or away from the archer, however such angle shall not exceed 15 degrees. (i.e. a facing away or towards archer) “Up-hill” or “down-hill” shots shall not exceed 45 degrees.

A target butt (a butt to which the IFAA paper targets is attached in other IFAA Rounds) shall not be set up with the free-standing 3D target. To ensure minimal arrow damage and/or arrow loss, a back-stop either natural or man-made shall be provided behind each target as follows:

A minimum distance of 10 yards shall be provided between the target and such back-stop.

The natural back-stop shall be the natural terrain which shall be free, as far as is practicable, of rock or stone.

An alternative to the natural back-stop is the man-made version using carpet off-cuts, nets or other usable material, which can be suspended in 2 layers. The first layer when hit by the arrow will move with the impact with, in most cases, the arrow falling to the ground. In the occasional occurrence where the arrow passes through the first layer, the second layer, and reduced arrow velocity incurred through passing through the first layer, will stop the arrow.

The carpet, net or other usable material may be suspended between trees, or over a constructed frame, with layers set at 2 feet apart. The height of the suspended carpet should be at least 8 feet from the ground, with the carpet reaching the ground and loosely anchored to still allow the carpet to move under arrow impact. The back-stop should be camouflaged, where practicable, to blend in with terrain.

4. TREE STAND SHOTS

No Commercial or Home made actual Tree Stands will be used.

Tree Stand shots may be simulated through the use of Shooting Platforms.

5. SHOOTING PLATFORMS

Shooting platforms may be used to simulate Tree Stands. When used, the platform must be sturdy and solid so as to present no safety hazard to the competitor who must use it. A shooting platform should be constructed to readily accommodate two archers, of any size, at one time.

Even then it is recommended that only one archer be allowed to use the stand at any one time; certainly, never more than two.

The Platform must be constructed so as to provide safe and easy access. Steps must be sturdy, solid and have the ability to be used safely by any competing archer. A hand rail should be provided in most cases to assist in mounting the steps. No rung ladder or other rudimentary device will be acceptable for gaining access to the raised platform.

A railing of no less than three (3) feet in height, must encircle the actual raised platform except for the space required for entry by the steps.

Shooting platforms that are not considered to be safe by the inspecting IFAA Official, will not be used. Instead, that shot shall be converted to a ground level shot.

NOTE: A platform built against the side of a hill may allow straight access to the platform from the target trail. In such a case, the requirement for steps could logically be waived. The Organiser of the tournament should keep in mind that the purpose of the platform is to provide an elevated shot, simulating a tree stand shot, and not to construct an obstacle course.

For those rulings that are upheld, the correction - if one is required - should be made in the handbook at its next printing.

The host Nation must quote their official Government registration number under which they are liable for the GST, VAT or other charge and the rate at which such charge is levied.

ARTICLE 10 – CHAMPION OF NATIONS COMPETITION

A. PURPOSE

To provide a venue in which National Teams may compete against each other for the title “Champion of Nations”. This competition makes use of all IFAA Shooting Styles and allows various strategies in the formation of teams.

B. ELIGIBILITY

Each member association of the IFAA is eligible to enter a team in the Champion of Nations competition. Team members must be members of the member association under which the team is formed. Adults, both male and female and, Veterans, both male and female, of all IFAA shooting styles, are eligible.

The IFAA Professional and Junior divisions are not eligible.

A registration fee is required.

C. STYLES

The IFAA shooting styles are divided into seven (7) groups (hereafter, referred to as – Style Groupings) where like or similar styles are grouped together in one grouping:

Group 1	Group 2	Group 3	Group 4	Group 5	Group 6	Group 7
AFBH(R)	AFBL	AFBU	AFBB(R)	AFFS(R)	AFFU	AFLB
AMBH(R)	AMBL	AMBU	AMBB(R)	AMFS(R)	AMFU	AMLB
AFBH(C)	VFBL	VFBU	AFBB(C)	AFFS(C)	VFFU	VELB
AMBH(C)	VMBL	VMBU	AMBB(C)	AMFS(C)	VMFU	VMLB
VFBH(R)			VFBB(R)	VFFS(R)		
VMBH(R)			VMBB(R)	VMFS(R)		
VFBH(C)			VFBB(C)	VFFS(C)		
VMBH(C)			VMBB(C)	VMFS(C)		

One competitor, male or female, is chosen from each style grouping to represent that style group. The selection is left strictly to the nation sponsoring the team. A (full) team consists of seven archers, one from each style grouping. A team of less than seven, may be entered if the nation cannot fill the style slot or, if the nation decides to do so for any reason.

D. ACCUMULATION OF POINTS

1. Individual Points

The individual Champion of Nations teams accumulate points as follows: (For this example, it is assumed there are seven (7) teams entered in the competition). Each day, in each style grouping, the high score in each style grouping will earn 7 points (with seven teams), second will earn 6, third will earn 5 and so on to the lowest score which will earn 1 pt.

(Exceptions occur when there is a tie. EG: first place score is tied by two archers. Both receive 7 points and the rest of the points are distributed 6-5-4-3-2. Or a tie at third place would result in points being distributed - 7-6-5-5-4-3-2. In these

cases, the shooters below the tie point end up with a higher score than if the tie did not exist)

2. Team totals

At the end of the tournament (each days score for each member is totalled and all team member's totals, are added together). The high team will receive 7 points followed by 6-5-4-3-2-1-. (Again, ties will improve standings of the teams below the tie point).

3. Medal count

Medal count – Medals earned in overall WFAC competition, by members of teams, will receive points as weighted. Medals – Gold, Silver and, Bronze, earned in regular WFAC competition, are weighted to reflect the attendance at WFAC of varying numbers of teams registered in the “Champion of Nations” competition. The weight of the Gold medal will equal the number of teams participating. In Example: With seven (7) teams entered, the Gold medal will equal 7 points, the Silver will equal 5 points and, the Bronze will equal 3 points. Points will be adjusted to reflect the number of teams if that number is more, or less, than seven (7).

E. STRATEGIES

The Champion of Nations event is a combined effort of all archers. From the overall attendance of archers competing in the styles of WFAC, to each Champion of Nations Teams, to the individual efforts of each member of the team, each step assists the team in their ultimate victory. It should also be recognised, that the Shooting Styles practised within each individual nation have a great deal to do with success in this competition. In example, a nation which has no recognised Longbow style, will not be able to put forth a full team in this competition.

As one might see, there is room for many varied strategies in forming a team. If a particular shooter cannot bring significant points to a grouping style, it may be outweighed by the fact the shooter may be expected to receive a gold, silver or bronze medal during regular competition in that particular style.

The choices in style grouping allows only one shooter, man or women, from the grouping. In other words, one shooter from the grouping per team. That shooter will compete daily against the other team's shooter in that grouping. Further, look at the 7th team position - Longbow, AF or AM. In IFAA competition (based on the first three WFAC'S in which the Champion of Nations competition was entered (1996,1998 and 2000) one might expect the NFAA-USA to fill the AMLB position with their three time winner of the competition. Other teams would need to defend against his contribution.

It MAY be that a top women contender in style AFLB would be a good choice IF that women was an odds on favourite to win the AFLB Gold or, faced little competition in the style.

From IFAA's viewpoint, those nations who are without a given style, are encouraged (through this competition) to develop that style within their nation. (a team member who shoots the tournament, regardless of score, is guaranteed a minimum of 1 point daily-which just might make the difference.

ARTICLE 11 – COURSES OF INSTRUCTION.

The IFAA may approve courses of instruction and instruction certification at the request of its member. A committee may be appointed by the President to determine such approval.

ARTICLE 12 – IFAA APPROVED TARGET FACES

A. FIELD, HUNTER, INDOOR, ANIMAL AND ALL OTHER APPROVED FACES.

All target faces which have been approved by the IFAA will be reviewed and kept in compliance in the following manner:

1. IFAA World Council Representatives will be notified which target faces are no longer in compliance.
2. Manufacturers or member associations will be notified that they have a period of six months in which to correct the specifications of those target faces found to be in non-compliance with IFAA standards.
3. Target faces not in compliance after the six months deadline, will be declared non-legal and IFAA approval will be withdrawn.
4. The IFAA Secretary will oversee the compliance of all IFAA approved target faces on an annual basis. The Secretary will require a written verification from each member association stating that their target faces continue to be in compliance with IFAA specifications. This will be done annually at the same time as re-affiliation is accomplished.
5. At each three-year period thereafter, target faces will be sent to a designated appointee of the Vice-President, for physical measurement and, re-approval.
6. 3-D targets that have IFAA approval, will be monitored as are paper target faces in the preceding paragraphs except that, 3-D targets will not be sent for inspection.

B. ANIMAL FACES: SHAPE DEFINITION OF THE HIGH SCORING ZONE

The shape and size of the high scoring zone of the Animal faces is defined as follows, where “A” and “B” will represent the following dimensions:

Group face	Horizontal dimension (A)		Vertical dimension (B)	
	1	368 mm	14.5"	229 mm
2	267 mm	10.5"	178 mm	7.0"
3	178 mm	7.0"	114 mm	4.5"
4	64 mm	2.5"	92 mm	3 5/8"

All dimensions are measurements on the inside of the line that defines the high scoring zone !

C. GROUPING OF 3-D TARGETS

3D targets will be grouped into sizes using the following equation:

Measure the vertical height of the two or three defined score areas/zones through the centre of the score areas/zones, as illustrated.

Having completed such measurement, allocate targets to the following group sizes:

Group size	Dimension	
	Group 1	> 250 mm
Group 2	201 – 250 mm	7 15/16 - 9 7/8 "
Group 3	150 – 200 mm	5 15/16 - 7 7/8 "
Group 4	< 150 mm	< 5 15/16 "

D. TOLERANCES OF SCORING ZONE DIMENSIONS OF PAPER FACES

1. All measurements of target faces will be taken in both the horizontal and the vertical plane of the target face. Each measurement will be taken through the centre of the target face.
2. A scoring zone is measured from the inside to inside of the relevant dividing line.
3. The maximum tolerance of each scoring zone shall be:

Field and Hunter target faces:

Target size	5 zone	4 zone	3 zone
65 cm	2 mm	3 mm	3 mm
50 cm	1.5 mm	3 mm	3 mm
35 cm	1 mm	3 mm	3 mm

Group 1	Group 2	Group 3	Group 4
3 mm	3 mm	2 mm	1 mm

Indoor faces:

Target size	5 zone	4 zone	3 zone	2 zone	1 zone

ARTICLE 14 – CROSS MEMBERSHIP OF INDIVIDUAL ARCHERS

This section serves only as a statement of recommendation and guidance for the members of the IFAA.

1. The problems that may occur as a result of a member or members accepting individuals that reside in another nation that already has an IFAA member, are considered National in nature.
2. The IFAA cannot dictate to its members in the matter of who they may, or may not, accept as their members.
3. Each IFAA member should handle these problems within its own Constitution/By-Laws or Rules by indicating therein, its rights to accept or refuse non-resident individuals as it sees fit.
4. Each IFAA member which desires that citizens of their country are not allowed membership of another IFAA member, must request (through the IFAA Secretary) that it's wishes are respected and that no other IFAA member accept its nationals. It must be noted that this action does not prohibit an IFAA member from accepting whomever it desires as a member.
5. It is the privilege of each IFAA member to define what rights of national association membership are afforded to each of its members.
6. It is the privilege of all IFAA members to enter into mutual agreements with other IFAA members to define their membership policies and conditions.
7. The IFAA will continue to honour their member's individual members who hold national membership. In the case of individuals who have been denied membership or, have been expelled from membership in their national association, the IFAA will forward such notification to that effect to its members, upon receipt of such notice, with its recommendation of non-acceptance of that individual.

ARTICLE 15 - RULES ON THE STATUS OF ARCHERS

With effect from 1st May 2008 all archers who are members of an IFAA member association are hereby deemed to be Amateur Archers within the meaning of these Rules, irrespective of their previous status.

Purpose and Spirit

The purpose and spirit of the Rules is to maintain the distinction between Amateur archery and Professional archery and to keep the Amateur sport as free as possible from the abuses,

which may follow from uncontrolled sponsorship and financial incentives.

It is considered necessary to safeguard Amateur archery, which is largely self-regulating with regard to the Rules of competition, so that it may be equally enjoyed by all Amateur Archers.

Doubt as to Rules

Any person who wishes to remain as an Amateur Archer and who is in doubt as to whether taking a proposed course of action is permitted under the definition of Amateur status should consult the IFAA Secretary in writing.

Definition of Amateur Status:

1. An Amateur Archer may work in an archery shop and receive a salary.
2. An Amateur Archer must not take any action for the purpose of becoming a Professional Archer, including entering into an agreement, written or oral, with a sponsor or Professional agent.
3. An Amateur Archer must not hold or retain membership of any Professional Archers' Association.
4. An Amateur Archer may compete in IFAA archery tournaments for prize money but must not accept a prize (other than a medal or trophy) or prize voucher of retail value in excess of Euro 500 or the equivalent in another currency. This limit applies to the total value of prizes or prize vouchers received by an Amateur Archer in IFAA sanctioned tournaments over one calendar year. A prize or prize voucher may not be exchanged for cash. However an Amateur Archer may submit a prize voucher to the national association with which he is registered and thereafter be reimbursed from the value of that voucher in accordance with 5. a. below.
5. An Amateur Archer must not accept expenses, in money or otherwise, from any source to compete in an archery tournament or exhibition other than provided for in this Article:
 - a. An Amateur Archer may receive expenses, not exceeding the actual expenses incurred, to compete in an archery tournament as follows:
 - i. Paid from a member of his family or a legal guardian or
 - ii. Paid by the national association of which he is a member.
 - iii. Expenses shall only be paid for the actual duration of the tournament as well as for reasonable travelling time and practice days.
 - b. An Amateur Archer may accept archery equipment or any other gift (e.g. complimentary sight-seeing trips, hunting trips, etc.) provided no advertising is involved. Such equipment or gift may not be exchanged for cash
 - c. An Amateur Archer who is invited to take part in a tournament for reasons unrelated to archery skill may receive reimbursement of his actual expenses.
 - d. An Amateur Archer who is participating in an exhibition in aid of a recognised charity may receive reimbursement of his actual expenses, provided that the exhibition is not run in connection with another archery event.
 - e. An Amateur Archer may receive payment or compensation for actual expenses incurred when giving instruction in performing archery.
 - f. An Amateur Archer must not use his archery skill or reputation to:
 - i. Promote, advertise or sell anything or for any financial gain.
 - ii. Obtain payment, compensation, personal benefit or any financial gain for allowing his name or likeness to be used for the advertisement or sale of anything.
 - iii. Obtain payment, compensation, personal benefit or any financial gain for a personal appearance at an archery tournament or archery exhibition.

6. An Amateur Archer may compete in a Pro-Am event (i.e. WBHC) without compromising his Amateur status so long as he complies with paragraph 4 above.

Definition of Professional Status:

1. A Professional Archer must register with the IFAA as a Professional Archer to be able to compete as a professional in IFAA sanctioned tournaments. Such registration shall be handled through the IFAA Secretary, who may delegate such function to others.
2. An archer shall be deemed to have registered as a Professional Archer when he first contravenes the 'definition of Amateur status'.
3. An archer who is a member of a Corporate archery team shall be deemed to have registered as a Professional Archer.
4. A Professional Archer may compete in the Amateur division if no Professional division is advertised for an IFAA sanctioned event.
5. The IFAA Secretary shall maintain a register of Professional Archers. A listing of the register will be accessible on the IFAA website for reference purposes only. The authoritative register will be that held by the IFAA Secretary.
6. Once registered as or deemed to be a Professional Archer, an archer shall be deemed to remain as such until reinstated as an Amateur Archer by the IFAA Executive Council.

Decision on a Breach

1. The responsibility to maintain Amateur or Professional status shall lie with the archer.
2. If a possible breach of the Amateur status by a person claiming to be an Amateur Archer comes to the attention of the IFAA, it is a matter for the IFAA to decide whether a breach has occurred. Each case will be investigated to the extent deemed appropriate by the Vice- President and considered on its merits. The decision of the Vice-President as to a breach shall be communicated to the person and shall be final, subject to a referral by the person of the Vice-President's decision to the Executive Council.

Enforcement

1. Upon a decision by the Vice-President that a person has breached the Rules of Amateur status, the IFAA Executive Council may declare the Amateur status of the person forfeited or require the person to refrain or desist from specified actions as a condition of retaining his Amateur status.
2. The IFAA Executive Council must use its best endeavours to ensure that the person is notified and may notify any interested archery association of any action taken under paragraph 1.

Reinstatement of Amateur Status

1. The IFAA Executive Council has sole power to reinstate a person to Amateur Status or to deny reinstatement. Each application for reinstatement shall be considered on its merits.
2. In considering an application for reinstatement, the IFAA Executive Council shall normally be guided by the following principles:
 - a. Awaiting Reinstatement
The Professional Archer is considered to hold an advantage over the Amateur Archer by reason of having devoted himself more fully to the sport as his profession; other persons infringing on the rules of Amateur status also obtain advantages not available

to the Amateur Archer. They do not necessarily lose such advantages merely by deciding to cease infringing the rules. Therefore, an applicant for reinstatement to Amateur status must undergo a period awaiting reinstatement as prescribed in this Policy.

The period awaiting reinstatement starts from the date of the person's last breach of the rules unless the IFAA Executive Council decides that it starts from the date when the person's last breach became known to the IFAA Vice-President.

b. **Period Awaiting Reinstatement**

The period awaiting reinstatement is normally related to the period the person was in breach. However, no applicant is normally eligible for reinstatement until he has conducted himself in accordance with the rules for a period of at least one year.

The following guidelines on periods awaiting reinstatement are indicative:

<u>Period of Breach</u>	:	<u>Period Awaiting Reinstatement</u>
Under 5 years	:	1 year
5 years or more	:	2 years

The IFAA reserves the right to extend or to shorten such a period.

c. **Status While Awaiting Reinstatement**

During the period awaiting reinstatement, an applicant for reinstatement must comply with these Rules as they apply to an Amateur Archer. He is eligible to enter IFAA sanctioned tournaments in the Amateur Division, however he is not eligible to receive medals or trophies and his scores shall be excluded from the scoring list when determining the medal position.

Procedure for Reinstatement

An application for reinstatement shall be submitted in writing to the IFAA Secretary and it shall include such information as the IFAA may require. The applicant shall respond to any further requests from the IFAA that reserves the right to approach National Authorities, Tournament Organisers and sponsors etc. in the pursuit of information to consider in connection with the said application for reinstatement. Such applications for information by the IFAA to other sources shall be copied to the applicant who may request from the IFAA a copy of any information so provided.

Review of these Rules

The IFAA Executive Council retains the right to revise these Rules by an Executive Ruling that shall be referred to the World Council for endorsement or reversal at its next meeting.
